NOAD Schema 3.8 and Workbook 7.8 -- Released

10/6/2022 - Over 1 Year Ago

As part of ongoing efforts to enhance maritime domain awareness, we continue to improve handling of essential data contained within Notices of Arrival and Departure (NOAD). A new schema (3.8) and workbook (7.8) has been released. This new schema and workbook include: new Fuel Type fields; the Crew/Passenger Gender fields have been changed to a picklist; and the Vessel field "NEW_BUILD_JONES_ACT" has been renamed to "NEW_BUILD" in the schema. "NEW_BUILD" will no longer be a required field in submissions.

As part of this release, the 3.6 schema and the 7.6 and 7.6.1 workbooks is being retired and their support removed.

Fuel Type

These new fields will be optional.

Fuel_Type_List.xml Format:

Fuel_Type_List|Fuel_Type|Fuel_Type_Desc|Electric

Fuel_Type_List|Fuel_Type|Fuel_Type_Desc|Low Flash Point Fuel (Below 60C)

Fuel_Type_List|Fuel_Type|Fuel_Type_Desc|Oil

Gender

These values have replaced the existing GENDER field under CREW and NON_CREW with a value that matches one from this list.

Gender_List.xml Format:

Gender_List|Gender|Gender_Desc|Male

Gender_List|Gender|Gender_Desc|Female

Gender_List|Gender|Gender_Desc|Other
